# Welcome to our brave new world!

We welcome you to an innovating, new world of products inspired by the basic need of all, water, combined with the Cretan organic aloe vera gel in which, as a company, we have mastered to the maximum degree.

Aloe Vera Hellas, with many years of experience in the cultivation of aloe and the production of Cretan organic Aloe products, is originalizing once more in the Greek market. Guided by everyday life, modern nutritional habits and consumer needs, it enriched its line with two series of innovative products in a variety of flavors. With the name **ALOE VERA MAX**, the modern consumer can now enjoy what we call, the waters of the future.

Water with aloe: in 8 different flavors, ideal for every moment in the day. It's a product that cools, tones and uplifts our mood with its fantastic flavors.

Carbonated water with aloe: in 8 different flavors. All the positive properties of carbonated water are added to the complex of the beneficial elements of aloe and the refined aroma offered by each flavor, makes it stand out.

The new favorite habit, for the whole family and for every moment has a name now.

## **ALOE VERA MAX.**

Of course, all our products are designed and produced without sugars or fats, with explosive flavors that cover even the most demanding consumer.

Best enjoyed chilled!

# WATER WITH ALOE

PURE

NATURAL

FRUITY

FRESH

- Natural -

-Peach -

- Banana -

- Strawberry -

It might sound as a stereotype but the only word that describes Aloe Vera accurately is "unique". Our natural flavor, well known all over the world, confirms exactly that.

Delight your senses with the sweet and mel-low flavor of peach. Combined with our organic aloe vera gel, the result is magnificent.

With it's original banana flavor, this product will revive a beloved taste that was missing from the market until now.

The balance between sweetness and acidity is very important for the taste of a strawberry. We are very proud that we managed to give this balance to our product with 100% accuracy.
